Marner Curriculum Year 4 'Pick and Mix' Homework Grid - Autumn 2 / 2026

Get Reading! Start your journey to becoming a superstar reader! Read every day and complete some reading activities suggested in your reading record. Go to the library and read Roald Dahl books  	**Get Speaking!** This term we will be writing and performing plays. Choose a story you like and try acting it out. Maybe get some family members to help. You could be The Twits! 	**Get Drawing!** Our art topic this term is Energy. You could: Use your energy in your hand to draw shapes as fast as possible or find an image of a sports person and draw them 	**Get Inventing!** We all need to be using renewable energy sources (sun, water, wind). Can you invent a machine that uses a renewable energy source?It could be a computer that has inbuilt solar panels or a car that uses wind energy or could a washing machine's water be used to charge a phone? 	**Get Visiting!** We will be looking at animal teeth in science. Why not go and look at some animals, maybe at a farm and look at their teeth. Or visit the Thames barrier and see how it protects London from flooding. 
Get Mathematical! Practise your subtraction and addition skills. https://nrich.maths.org/problems/subtraction-surprise 0r write 10 four digit numbers in your book and use them to create 5 add and subtractions. Can you use the column method to solve?	**Get Investigating!** Research an animal and find out what it eats and what type of teeth it has. 	**Get Writing!** Design a poster for younger children explaining how to look after your teeth. You could include some fun facts. 	**Get learning about the environment!** Do an energy survey of your home such as: How many hours a day do we have lights on? How many devices are always switched on?  Could you think of any steps to help your family save energy? Try them out . Did they work?	**Get painting or modelling!** Could you make your own moving figure out of play dough, foil, Card or plasticine.
