

We are incredibly fortunate, at Marner, to have a thriving garden and Forest School.

All classes are given the opportunity to grow fruit and vegetables in the garden and to participate in looking after the garden and harvesting the crops.

Here are some photos of the classes growing fruit and vegetables.

Miss Scott from Year 5 ran a Young Marketeers Project with Borough Market, where we were given the opportunity in previous years to bring our produce to the Market to sell. Due to Pandemic Restrictions in 2021, this project was held in school and children were able to display, market and value the crops and think about the process of production both in the UK and in other countries.
