

07.10.21

To whom it may concern,

I would like to bring to your attention the fantastic work being done by the staff of Marner primary school.

I have two children with non verbal autism and both now attend Phoenix primary school, but they both began their school experience at Marner and it was the best decision I could have made for both of my children.

My Daughter started at Marner in reception and I honestly couldn't have asked for more from a school, not only was my daughter fully supported while in school, but they also would help anyway they could with providing resources to continue the support at home.

They provided such a nurturing environment for her and put in so much work to help her transition from Marner to Phoenix and this is why she adjusted to her new school so well.

My son started in nursery at Marner about a year after my Daughter had left for Phoenix and he received exactly the same care and attention as his sister, this was made a lot more difficult because we were in the middle of the Pandemic and the school had closed. I am so very grateful for everything they have done for both my children.

I understand that everyone who attends any school should receive this kind of school environment, but unfortunately this is not always the case and I have personal experience of this from when my eldest son was attending his primary school.

I just really wanted to express how much I appreciate this School and its staff, they are so kind and caring. It obvious how much their work means to them because they put in so much effort and work very hard for the benefit of all the children that attend Marner.

This school is a genuinely an amazing school and most of that is down to every member of staff no matter their role, and a lot of schools could learn a lot about creating a safe, nurturing and happy environment from them.

Thank you,

XXXXXXX
