

MARNER PRIMARY SCHOOL

The Story of Us

SHINE Partnerships 2019-2020

Lehman Foundation and Poplar HARCA

SHINE@Marner is now funded through the Lehman foundation, Poplar Harca and Marner school. It is exciting that we have further funding to continue to run SHINE and create so many exciting enrichment and extra- curricular activities for all the children that come along each week.

Artis

We have worked in partnership with ARTIS this year. They ensure every child reaps the benefits of a creative education in primary school. They believe in the transformative power of the performing arts to change lives. We have worked with them for the whole of the autumn term focusing on using the performing arts to focus on English, Maths and Science. It has been a fantastic learning experience for our children.

Museum of Docklands

Every year we work alongside the Museum of Docklands who run sessions and workshops for supplementary schools at weekends. They also do outreach work. Last term they paid us a visit and taught us through workshops and hands on artefacts all about the history of London and in particular Docklands. It was a great immersive experience for our children to learn about the history of their local area.

Stubbers

This is an outward bound adventure centre. For the last six years we have ended our SHINE year with a visit here. They have also supported us with funding. Whilst there our children have the opportunity to take risks, try something new and gain a confidence they may not have realised they had. At

the same time working as a team and enjoying being outside in the Essex countryside.

Peer Mentor Volunteers at SHINE on Saturday

Each term SHINE school has Y10 volunteers from Langdon Park Secondary School. This is something which SHINE@Marnier has done now for six years. It is a great benefit to us and to the students. They come along for work experience or whilst doing their Duke of Edinburgh. They are peer mentors to all the children at SHINE. They get involved in support in the classroom, in preparing lunches, in our sports afternoons and really enjoy coming along on our trips. It is a really strong mutually beneficial partnership.

Stebon SHINE School

We are also liaising with Stebon SHINE school. We have organised some sports competitions between the schools. We will visit them and they will visit us.

Mile End Climbing Wall

Every year we also work in school with instructors from Mile End climbing wall. We are very lucky at Marnier to have our own climbing wall which is NICAS accredited. Each week a group of children work on their NICAS award. A second group changes each week as each child is given the opportunity to experience climbing.

Exotic Animal Encounters.

We have also built up a good relationship with Rob from Exotic animals. Each year we arrange a visit and the children get to meet and handle a whole range of creatures from Charlotte the spider (who has her own equity card) to an enormous snake and many others. This is also something we share with
